Structured Media® Enclosures

Brand Features

This 28" Structured Media enclosure is the ideal solution to organize the telephone, TV, multiroom audio, and high-speed data network for a 3-5 bedroom house, including a home office or den. The enclosure will comfortably accommodate up to eight distribution modules, depending on selection and density. Technologies include coaxial cable-based CATV or Satellite TV equipment from the CAT 5e or CAT 6 UTP-based communications and networking equipment. The sturdy design and functionality facilitate installation, reducing job-site labor costs, and making it easier for the DIY'er to put some order to the bird's nest of cables that make up most home networks. Leviton's 28" Structured Media enclosure is packaged as part of a kit that includes a flush-mount cover.

Item Description

28" Structured Media Enclosure and Flush-Mount Cover

Technical Information

Dimensional Data

Height: 28 Inch
Width: 14.38 Inch
Depth: 3 Inch

Standards and Certifications

Features and Benefits

- Accommodates two or more full-width Pre-Configured Structured Cabling Panels
- Positive tabs on housing sidewalls prevent enclosure from falling through the studs during installation

- One piece white steel unit holds 1/4, 1/2 and full-width expansion modules with the ability to mount most modules vertically or horizontally
- Can be surface-mounted or recessed
- Ideal for new installations and retrofits
- Powder coated white cover features 3/4" overlap to hide irregular drywall cuts
- Combine two or more enclosures for larger installations or future expansion
- Multiple knock-outs on top and bottom, including two 2" knock-outs on top, facilitate cable entry and routing
- Cut-out in base of enclosure for mounting single and double gang J-boxes and power modules
- Six 3" square self-healing foam grommets accommodate and protect cable bundles
- Cutout pattern in bottom accommodates the same Leviton Power Modules for any necessary active gear like service provider modems or Leviton active routers and switches
- Standards Compliance: ACA and CULus listed; UL Listed for fire and burglary
- Enclosures are constructed of white powder coated 20 gauge steel
- Covers are constructed of white powder coated 18 gauge steel
