

Mini VGA Video and Audio Extender over Cat5
StarTech ID: ST121UTPMINI

The ST121UTPMINI Mini VGA Video and Audio Extender over Cat 5 provides a complete high resolution point-to-point digital signage solution, comprised of one local transmitter and one remote receiver.

Simply connect the local (transmitter) unit to the VGA video and audio source, and the remote unit to a VGA display up to 90 meters (295 feet) away. To start extending the VGA and audio signal, create a point-to-point connection by using Cat 5 / Cat 6 UTP cable.

The Cat 5 VGA extender provides a cost-effective way to situate your display as needed, eliminating standard distance limitations for a more effective digital signage configuration. This small form factor extender is compact enough to be tucked away behind the display even when space is limited.

Application Diagram

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications and Solutions

- Perfect for tight spaces or when a boxed VGA extender is not convenient for the installation
- Use digital signage to catch the attention of your audience and deliver up to date content the way you want it to be seen and heard
- Place the display in a convenient viewing area, while the system equipment is placed elsewhere in a clean and secure environment
- Ideal for digital signage applications in educational, corporate, retail, healthcare, and hospitality sectors
- Perfect for video conferencing solutions in boardrooms and office settings
- Optimize placement of your demo stations at trade-shows and in auditoriums

Features

- Supports resolutions up to 1920x1200 at 90m / 295ft
- USB Powered Local / Transmitter unit – no external AC adapter required
- Receiver has a built in equalizer for fine tuning image quality
- Transmit VGA Video and Audio through a single Cat 5 or better cable
- Pure hardware design, no software or drivers required

Technical Specifications

- Warranty: 2 Years
- LED Indicators: 1 - Power and Video Status
- Maximum Cable Length: 295.2 ft [90 m]
- Maximum Analog Resolutions: 1920x1200
- Output Current: 1000mA
- Carton Quantity: 36
- Shipping (Package) Weight: 15.18 oz [430 g]
- **Note:** This product ships with a single AC adapter to be used on the remote end. The local extender unit is powered by an available USB port.
